“ALLOW US TO RE-INTRODUCE OURSELVES”

Gansevoort Meatpacking is an iconic hotel that has called New York City’s Meatpacking District home for more than 15 years. Premiered in Fall 2020, the property has had top to bottom renovation. Gansevoort will be first in its class to implement the MIRROR workout companion and the Google Nest Hub in all guest rooms. The 186-room hotel features a full service ground-floor restaurant, year-round rooftop bar and restaurant, a 45-foot heated outdoor pool, and indoor and outdoor space where guests can enjoy unobstructed, 360-degree views of the Manhattan skyline.

Each room carefully balances design with technology, discreetly layering in tech enhancements to amplify the guest experience. The MIRROR, the interactive home gym that doubles as a full length mirror, is stocked in each room, allowing guests to stream fitness classes from boxing and dance to yoga and pilates. Guests can also interact with their Google Nest Hub, seamlessly accessing hotel and neighborhood information and special amenities and services with a simple Google chat function. Gansevoort Meatpacking features 20 suites and the Poliform Penthouse.
